

A Short Introduction

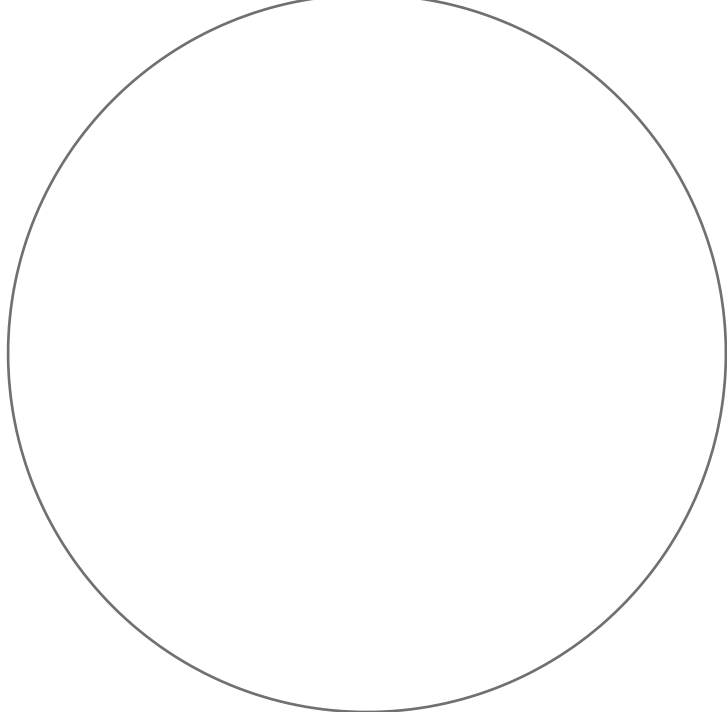

I am a student, currently receiving my education at Ngee Ann Polytechnic (NP). I am studying in the school of InfoComm Technology (ICT) and pursuing a diploma in Information Technology. Up till now, I have been learning under the mandatory curriculum of primary and secondary school. Thus, I hope to further my knowledge and skills here at NP, and use them as a base and enabler for future studies and career.

About me

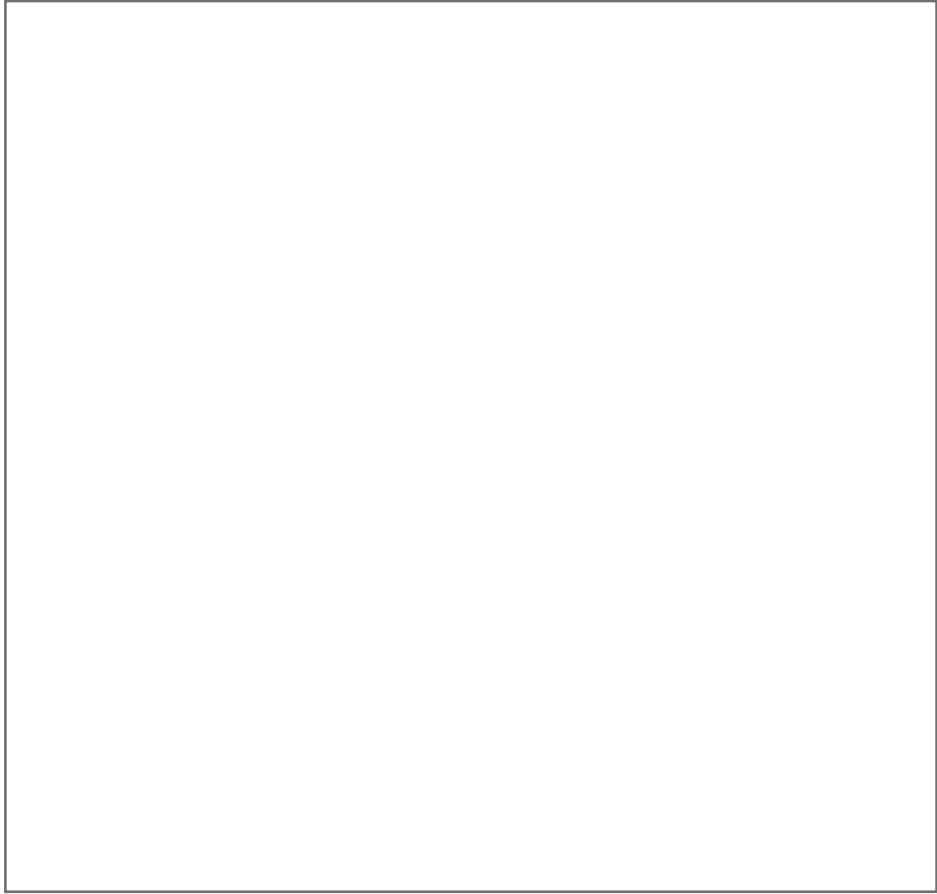

Hi, my name is Chiam Wei. To describe myself very simply, I am a introverted but competitive person. I spend a lot of time in front of my phone or laptop screen watching clips, videos and other types of entertainment online. Being exposed to technology from my mother's work and various platforms since young, I have developed an interest in learning IT at a more advanced level. Therefore, starting with small steps here at Ngee Ann Polytechnic, I want to further develop my skills and knowledge in IT.

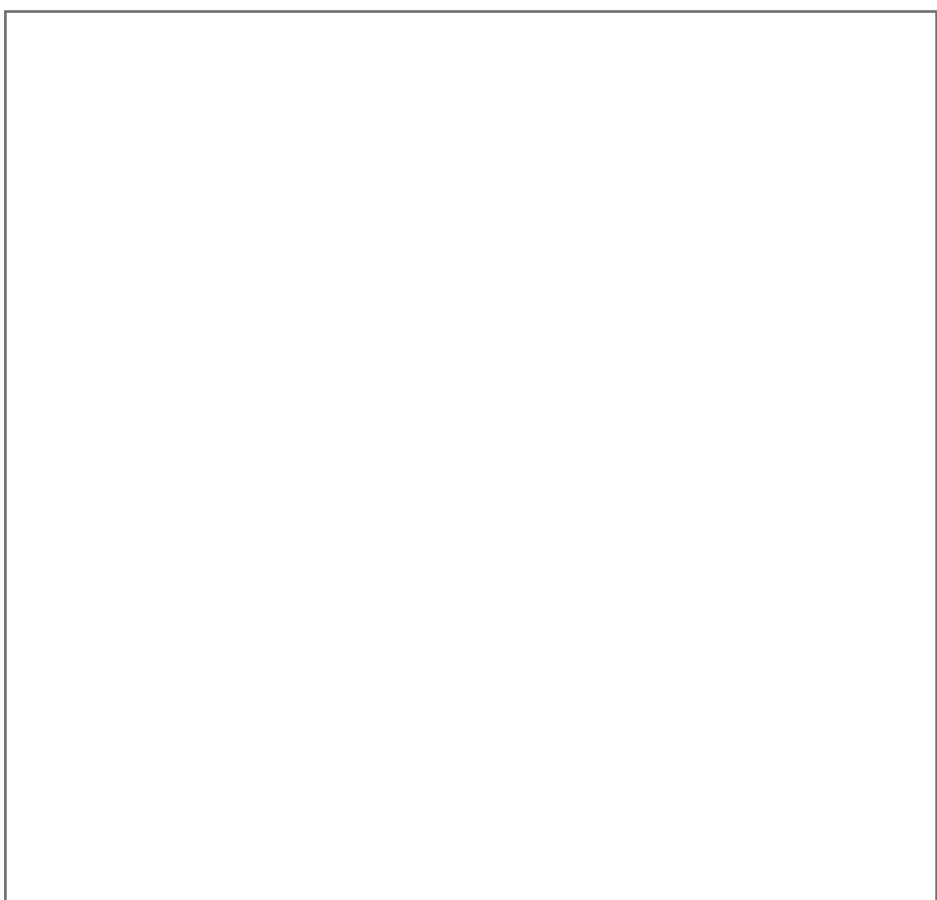

The goal of my current education journey is to gain enough experience and knowledge with multiple software and programming languages to become a software engineer or a web application developer. I may not be quite self-driven but I constantly strive to complete duties assigned to me. This mindset of mine also applies to team projects. Looking at myself objectively to an extent, I like to work independently and this can sometimes affect the teamwork within the group. Thus, I always strive to better myself and become a reliable person to work with.

Work Experience

November 2020 - December 2020

WAREHOUSE PICKER/PACKER,
WATSONS

I worked as a warehouse picker and packer under Watsons for about 1 and a half months. This was my first work experience so it really taught me much about the workplace that I previously didn't know. It was a physically-straining job but very rewarding at the end of the day. I would say this was a great introduction to the working world.

February 2021

CNY FESTIVE HELPER/PROMOTER, F&N

During the Chinese New Year (CNY) celebration period, I worked as one of the many promoters for CNY goods and promotions under F&N. I was stationed at the Fairprice outlet @JEM as the only temporary staff working for F&N. It was difficult working alone for the most part, with some supervisors checking in from time to time. However, I truly learnt the importance of being professional even when no one is looking. This experience helped strengthen my sense of duty.

Education

April 2021 - Present

(IN PROGRESS) DIPLOMA IN INFORMATION TECHNOLOGY, SCHOOL OF INFOCOMM TECHNOLOGY, Ngee ANN POLYTECHNIC

This is the place I am currently pursuing my diploma in Information Technology at. This school will be very different from the general education I received during my secondary and primary school years. As the curriculum will be more focused and work-oriented, I hope to gain the skills and knowledge I need for my future career during my time here

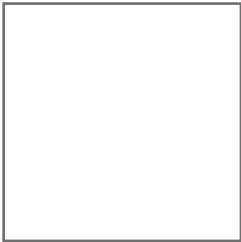

January 2017 - December 2020

O' LEVELS, FAIRFIELD METHODIST SCHOOL (SECONDARY)

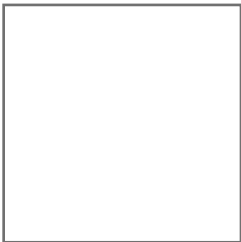

I pursued my O level qualifications here to receive a higher education in the future. However, it was also a place where is experienced part of my youth and gain insight into my self-development. I learnt about leadership, teamwork and independence among many others. This educational institution taught me more than just the syllabus and I am grateful to every classmate, teacher and staff who guided me through this journey.

Core Skills

Leadership

Teamwork

Critical Thinking

Technical Skills

Python Programming
Basic-Intermediate

C# Programming
